

Warranty

AMT guarantee that the properties of the Product have a duration of 10 years after application, starting from purchase date. This guarantee is based on the condition of a regular and scrupulous maintenance of the Products, to the control of the finish and to the re-paint after 10 (ten) years.

About warranty of the product before application, AMT guarantee Airlite paint for 1 (one) year, starting from purchase date, if properly stored in its original packaging, closed and undamaged.

PREPARATION AND PRIMER

The substrate must be firm, dry, clean and aged (for new plaster almost 28 days after their application), free of dust, mould, oil and other substances that can prevent the adhesion.

Substrate must be pre-treated with AIRLITE PRIMER to uniform the absorption of the substrate. Airlite being a natural paint, it is more sensitive to absorption especially on different supports; this process is indispensable if the painting is pigmented, thus avoiding the possible formation of halos.

On substrates where the adhesion is very difficult, PRIMER SUPERFIX must be used. This must be applied on plaster-based synthetic resin, plastics covering, fiberglass, metal supports or particularly smooth concrete.

All the substrate that will be painted with Airlite must prove the ability to meet the requirements, according to the instructions above. For all the other kind of substrates such as sealants, etc., the paint should be tested in advance to see whether the surface is adapted to the application of Airlite.

APPLICATION

Refer to the Product Specific Technical sheet: Guarantee is applicable only if all the instructions set out in the Technical Sheet and all future instructions released by AMT are strictly followed by the user.

MAINTENANCE

The user has the full responsibility of planning the maintenance, respecting the time and the quality of the paint. The nature and the importance of the maintenance depend on the location and the position of the building. As an indication, a traditional maintenance is recommended, including the following points but not in a detailed way:

- Reapply the product if necessary.
- Regular maintenance of the external joints, water penetration, application of silicon, gutter...etc
- Keep it clean around the drainpipes and the window sills as it is required.
- Remove the vegetation that runs along or touches the surface.

The Product has a Maximum Storage Lifetime of 1 year

Further instructions and information will be available on continuous basis and shall be provided in every package with the product.

EXCLUSION

According to the guarantee above, AMT will not assume any liability in the following cases:

- the use of other paint and/or for other paints/products that are not from the line Airlite;
- the paint is applied beyond the maximum Storage Lifetime;
- if the paint is not applied in the recommended way and if the surface is not perfectly prepared for the application
- if the application of the paint Airlite occurs on surfaces that are not formerly treated with AIRLITE PRIMER or SUPERFIX.
- if other products are added to the mixture or if the applicator does not follow the prescribed instructions;
- if the maintenance of the applied paint does not occur according to the rules and incompatible with all of our instructions
- if the applier was not informed about the characteristics of the paint and the method of application.
- if the client does not apply all the necessary devices during the application and the maintenance.
- for damages caused by the work and its motions, fires, storms, flooding, earthquakes, hurricanes and any other Force Majeure event;
- for normal rubbing off and discoloration
- for damages caused by the substrate or the applied primer
- for any kind of direct or indirect work if they are not strictly necessary to fix remedy of the shortcomings of the paint
- for any request for a guarantee of the paint if the client cannot show the receipt of the paint proving that it is from the line AIRLITE of AMT.

Limited Liability Warranty

AM Technology Ltd applied strict quality standards both during the production of our products and the description of the products and their use. The high quality of the product is guaranteed, at our discretion, we are willing to replace or reimburse the price of any faulty product. Satisfying results do not depend only on the product but on many other facts that are out of our control. Therefore, except the replacement or the reimbursement in case of a faulty product, AM Technology Ltd DOES NOT GIVE ANY OTHER GUARANTEES, explicit or implicit, including guarantee of ELIGIBILITY FOR A PURPOSE OR MARKETABILITY, regarding the actual PRODUCTS, AM Technology does not take any other responsibilities. Possible discontent about the product must be communicated in writing in one (1) year from the date of the delivery. No claims will be considered out of the specified time interval or claims that are not in writing. The client must determine the suitability of the product for the purpose of its use and accept all the possible risks and responsibilities. Any approved change on the printed directions of use of our product must bear the signature of the technical Director of AM Technology Ltd.
